

Aristocrat and VGT Help Tribal Operators Make the Big Play in Class II and Class III at NIGA 2016

Aristocrat and VGT Showcase Leading Titles and Technologies in Booth #1347

LAS VEGAS (March 9, 2016) – [Aristocrat](#) is a long-standing partner of Tribal gaming operators, and now at [NIGA 2016](#), Aristocrat and subsidiary [VGT](#) are helping operators make the big play in Class II and in Class III gaming.

Aristocrat and VGT head to NIGA with an unparalleled portfolio of games that have been carefully curated to appeal to every type of player housed in industry-leading cabinets and supported by the most widely used casino management system in Indian country. With new game and system technologies to increase player loyalty across Tribal operators' enterprise, Aristocrat and VGT's booth #1347 is not to be missed.

"At NIGA, we are delivering on our promise to our customers to continue to help them make the big play in Class II and Class III gaming," said Brooks Pierce, Aristocrat Americas managing director. "We have a roadmap of games that are among the most-anticipated titles in the industry, and our fully integrated Oasis 360™ brand connectivity suite is a must-have for operators looking to engage their guests beyond the gaming floor."

"We understand that for Tribal operators, their business is more than just business – it's personal, it's family," said VGT President Jay Sevigny. "We have the proven portfolio of hardware, games and system solutions in Class II and in Class III to help our Tribal partners utilize gaming as an investment in their communities and to further secure their financial success."

The big play begins with the biggest titles. The Aristocrat NIGA experience includes incredible licensed titles including The Walking Dead™ II Slot Game, Game of Thrones™, The Big Bang Theory™, Ted™, Batman Rogues Gallery™, Magic Mike XXL™, Man of Steel™, and Bettie Page™.

Also coming to NIGA is one of the most talked-about games in the industry, Lightning Link™, along with Buffalo Grand™, Can Can de Paris™, Pixie Wishes™ and new titles in Aristocrat's C*Series™, E*Series™ and J*Series™.

New to NIGA is the just-released M*Series™, an exciting new collection of multi-game, multi-denom games engineered specifically for core and jackpot players. Each machine in M*Series comes complete with six games, and every game is a player-favorite classic – proven titles with original math models. Adding to the fun, each game in M*Series features a multi-level standalone progressive jackpot, and all games are player-selectable multi-denom.

For the Class II side of the operation, VGT® will showcase new entertainment-style games centered on a three-reel stepper wealth theme that includes a new button configuration. Two new features – locking and nudging reels – are incorporated along with one of VGT's classic characters, "Newton the Nudger." VGT will also feature new five-reel stepper brand extensions with proven player favorites along with the Red Spin™ Gambler Series with five-high denom, low-line count video titles on the XSPIN® platform.

Aristocrat is leading the industry in system solutions, displaying the latest advancements to its award-winning Oasis 360 system. Oasis 360 is the system solution most widely used by Tribal operators. Now Oasis 360 is

expanding with a fully integrated brand connectivity suite that allows operators to extend beyond traditional casino and F&B amenities.
