Aristocrat Chief Executive Officer and Managing Director, Trevor Croker, said "The results and momentum we've delivered this year demonstrates the successful execution of our growth strategy.

"We continued to take share and deliver above-category organic growth over the year through sustained investment in outstanding product, people and capability, and further strengthening our business fundamentals.

"Our progress is reflected in the share growth and margin expansion achieved across key segments during the year, with industry-leading games and products and further diversification across our Aristocrat Gaming and Pixel United<sup>1</sup> portfolios.

“Aristocrat’s recommended offer to acquire Playtech plc, announced after period end, is another demonstration of our appetite to accelerate the implementation of our strategy through accretive M&A, in particular where it can deliver new capabilities and access to significant growth opportunities. We are focused on achieving necessary approvals, and continue to expect the acquisition to complete in the second quarter of calendar year 2022.

“We are also making important progress in our sustainability efforts, with the launch of product innovations in responsible gameplay this year, together with additional corporate governance, culture and diversity initiatives, reflecting our priorities. Furthermore, we have committed to adopting a science-based greenhouse gas emissions reduction target, consistent with the Paris Agreement, by the end of 2023. We look forward to sharing full details with the launch of our FY21 Sustainability Report later this month.

“Aristocrat enters fiscal 2022 with excellent operational momentum, business resilience, and an appetite to continue to invest organically and through M&A to accelerate our growth strategy,” Mr Croker concluded.
